How do I generate an API key for Aquatis Manager?

This article explains how you would generate an API key for AquatisManager or other Minecraft-related products.

After completing the steps the API key will be displayed in a greyed outbox. Please keep your API key secret as it is like a password for your account.

Step 1

Log in to the Multicraft Panel.

Step 2

Click Profile on the top navigation bar.

Step 3

Click Generate API Key on the left navigation bar. Select Yes on the pop-up.

Step 4

Copy the API Key details and paste where needed.
