How do I reset my forgotten password on Pterodactyl?

Step 1

Navigate to [Pterodactyl](#) panel's login screen.

The screenshot shows the Pterodactyl login interface. At the top, it says "Login to Continue". Below this, there are two input fields: "USERNAME OR EMAIL" and "PASSWORD". A blue "LOGIN" button is positioned below the password field. Underneath the login button is a link for "FORGOT PASSWORD?". At the bottom of the form, there is a copyright notice: "© 2015 - 2023 Pterodactyl Software".

Step 2

Select **Forgot Password**.

A close-up of the "FORGOT PASSWORD?" link, which is a light blue button with the text "FORGOT PASSWORD?" in a darker blue font.

Step 3

Type your email in the box and click the **Send Email** button.

Request Password Reset

EMAIL

youremail@aquatis.host

Enter your account email address to receive instructions on resetting your password.

Step 4

Navigate to your email and select the **Reset Password** button on the Aquatis email.

Aquatis LLC

Hello!

You are receiving this email because we received a password reset request for your account.

[Reset Password](#)

If you did not request a password reset, no further action is required.

Regards,
Aquatis LLC

If you're having trouble clicking the "Reset Password" button, copy and paste the URL below into your web browser:

<https://pterodactyl.aquatis.host/auth/password/reset/>

Step 5

Type in your new password, then type it again to confirm it. Once completed select the **Reset Password** button.

Reset Password

How do I change my email address on Pterodactyl?

Step 1

Navigate to [Pterodactyl](#) panel's login screen and **Login**.

The screenshot shows a dark-themed login interface. At the top, the text "Login to Continue" is displayed in white. Below this, there are two input fields: "USERNAME OR EMAIL" and "PASSWORD", both with dark gray backgrounds. A prominent blue button labeled "LOGIN" is centered below the fields. Underneath the button is a link for "FORGOT PASSWORD?". At the bottom of the interface, the copyright notice "© 2015 - 2023 Pterodactyl Software" is visible.

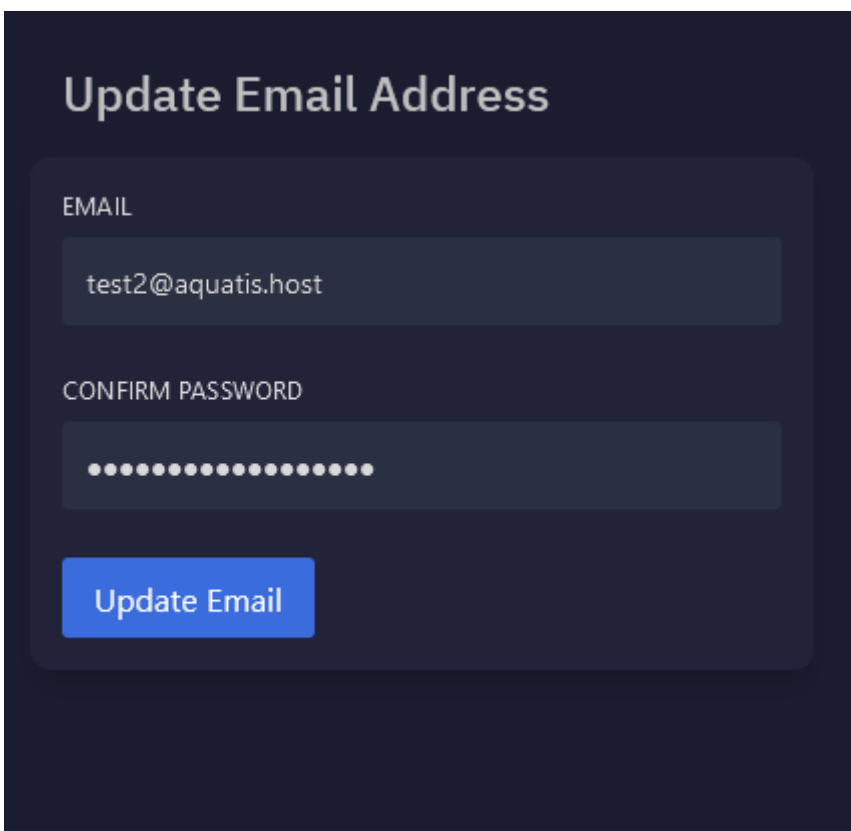

Step 2

Navigate to **the Account** section on the left side navigation.

Step 3

Navigate to the Update Email Address section on the middle of your screen. Enter your new desired email, type in your current password and select the **Update Email** button.

The system will apply the changes and stay on the screen. You will see a visual confirmation.

How do I change my current password on Pterodactyl?

Step 1

Navigate to [Pterodactyl](#) panel's login screen and **Login**.

The screenshot shows a dark-themed login interface. At the top, the text "Login to Continue" is displayed in white. Below this, there are two input fields: "USERNAME OR EMAIL" and "PASSWORD", both with dark gray backgrounds. A prominent blue button labeled "LOGIN" is centered below the input fields. Underneath the button, the text "FORGOT PASSWORD?" is visible in a smaller, lighter font. At the bottom of the interface, the copyright notice "© 2015 - 2023 Pterodactyl Software" is shown in a small, light gray font.

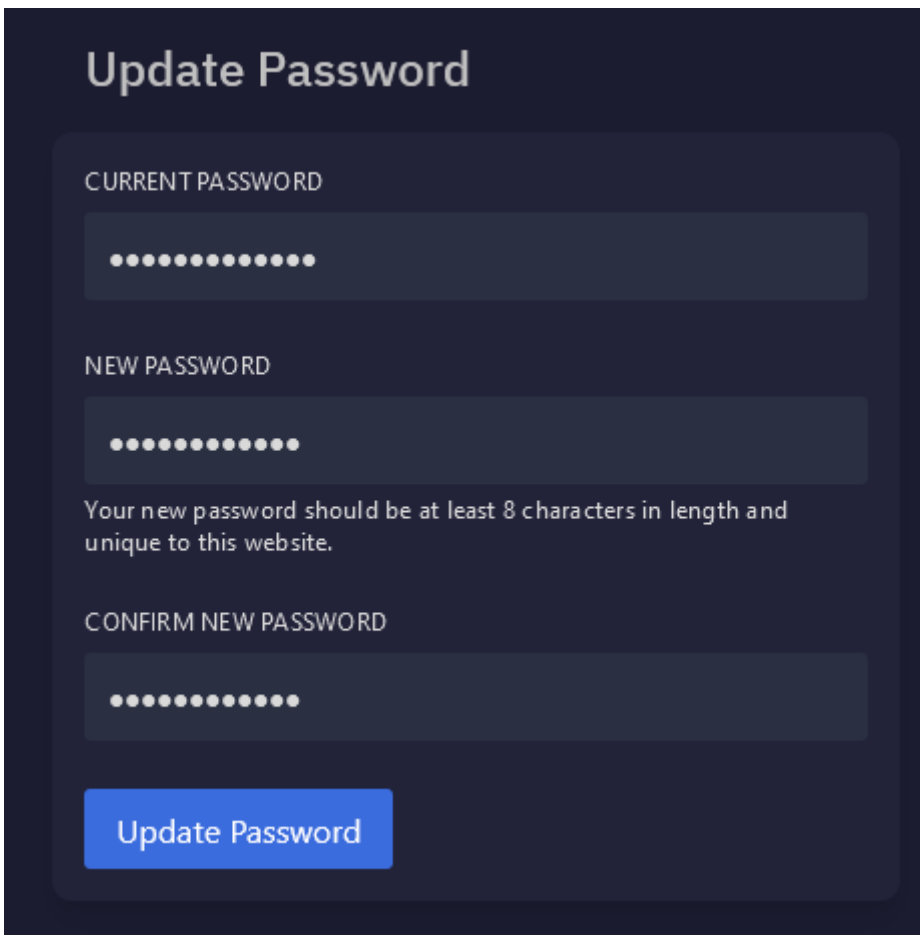

Step 2

Navigate to **the Account** section on the left side navigation.

Step 3

Navigate to the Update Email Address section on the left side of your screen. Enter your current password, type in your current new password twice in the boxes on your screen to confirm it. Then, select the **Update Password** button.

The system will apply the changes and stay on the screen. You will see a visual confirmation.

You have completed reading this guide.

How do I add/open a server port on Pterodactyl?

Step 1

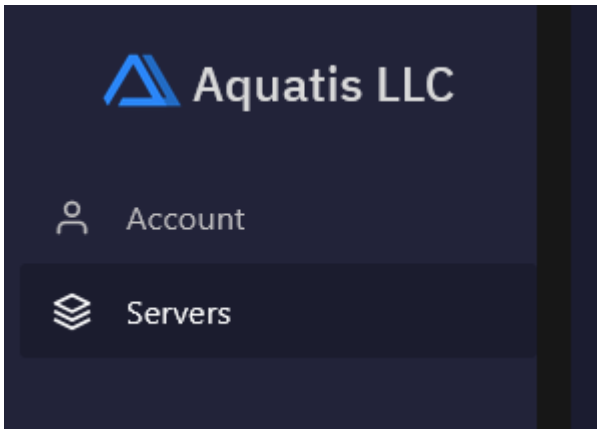

Navigate to [Pterodactyl](#) panel's login screen and **Login**.

The screenshot shows the Pterodactyl login interface. At the top, it says "Login to Continue". Below this, there are two input fields: "USERNAME OR EMAIL" and "PASSWORD". A blue "LOGIN" button is positioned below the password field. At the bottom of the form, there is a link for "FORGOT PASSWORD?". The footer of the page reads "© 2015 - 2023 Pterodactyl Software".

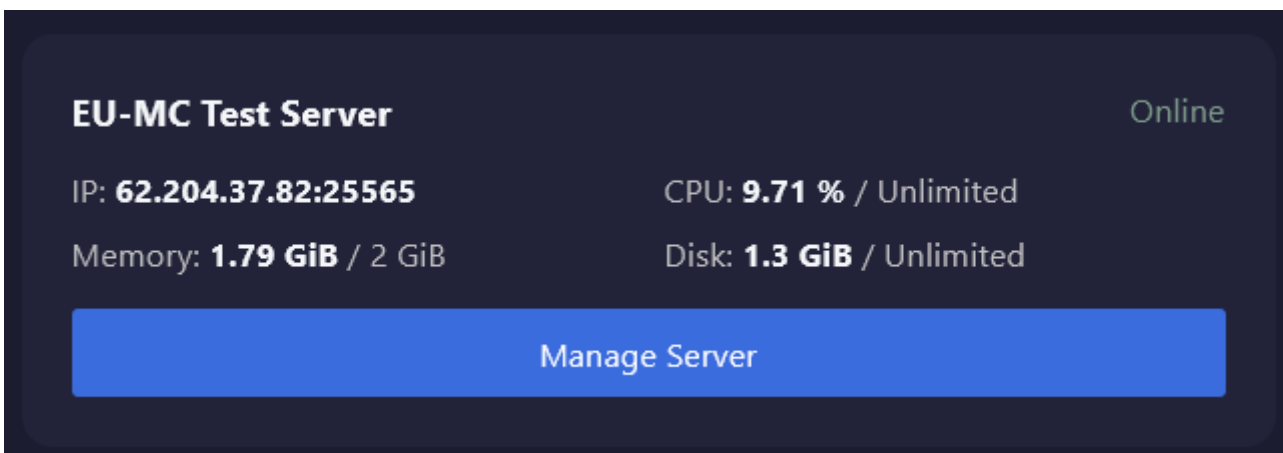

Step 2

Navigate to the **Server** section on the left side navigation.

Step 3

Navigate to the server you wish to manage, select the **Manage Server** button.

Step 4

On the top navigation, select the **Network** text to manage the networking for your server.

Step 5

Select the **Create Allocation** button to create a new port allocation for your server.

Step 6

Type **Notes** into the notes box to create a reminder of what you are using that port for.

You are also able to delete the additional port, or make it the primary port for your server for players to connect with.

Step 7

On the top navigation, select the **Console** text to navigate to the server console.

Step 8

Restart the server with the stop then start button. Upon completion, the ports will be open.
