How do I change the password of my VPS?

Step 1

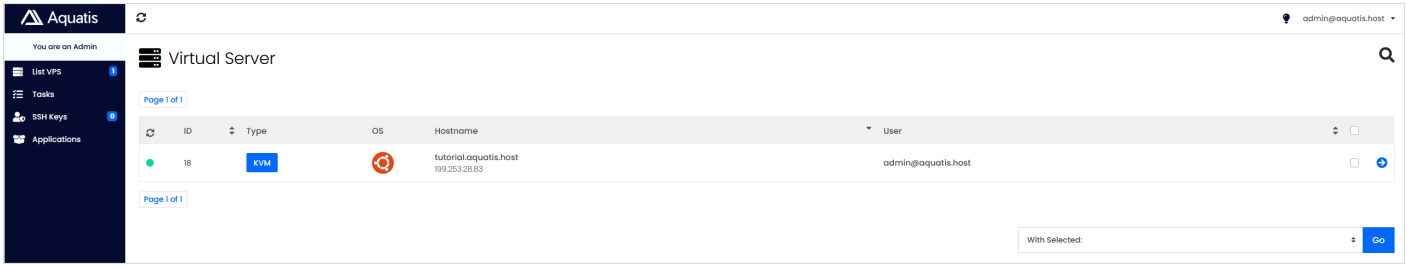

Sign in to the VPS panel.

VPS Panel: https://vps.aquatis.host:4083/

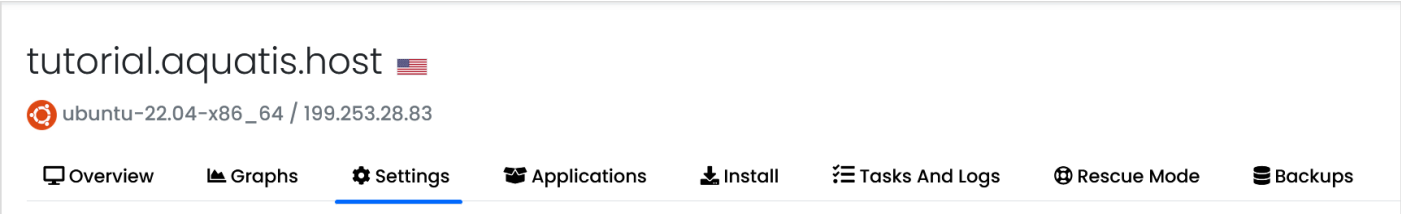

Step 2

Select the **VPS** you wish to control.

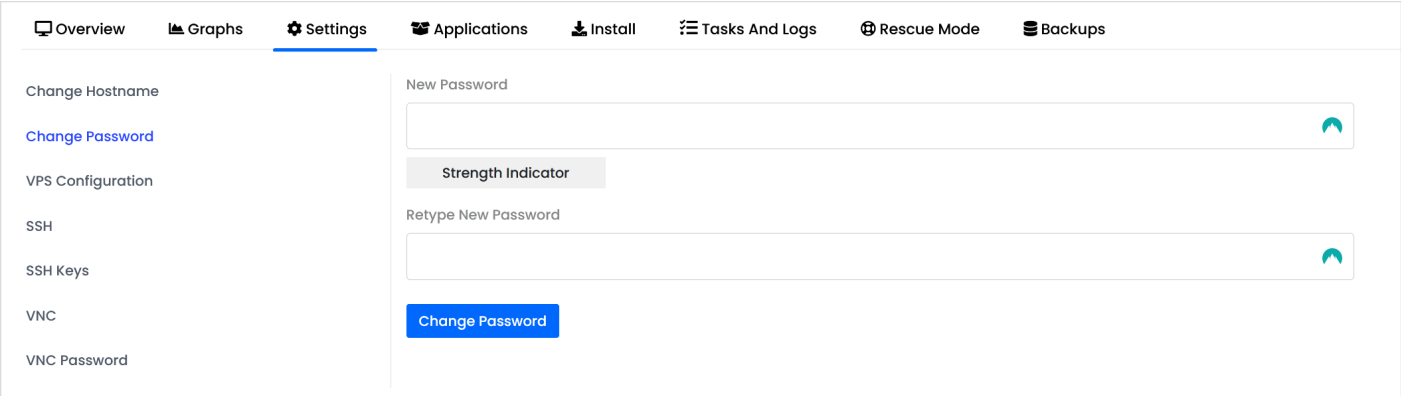

Step 3

On the navigation bar, select the **Settings** button to view the VPS settings.

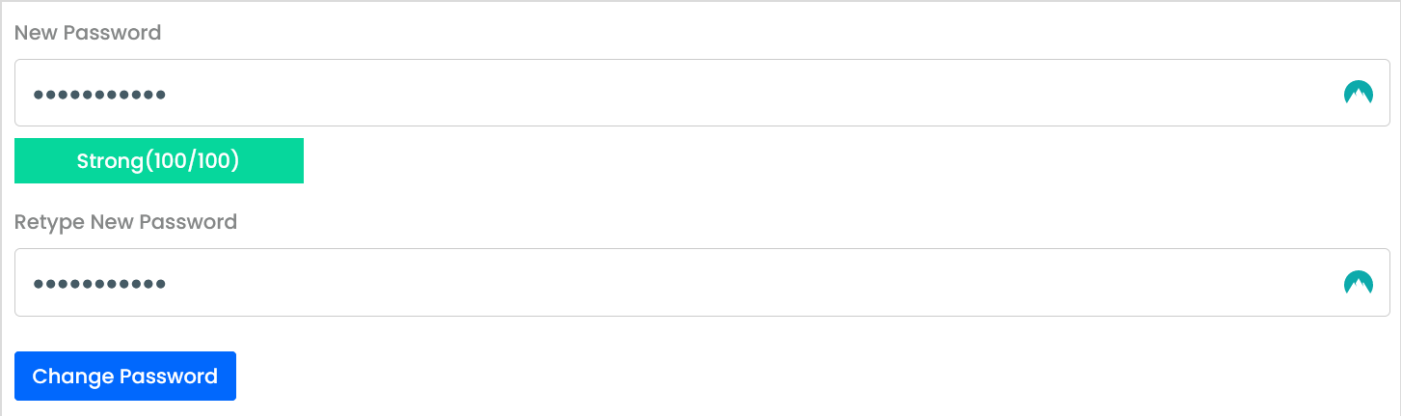

Step 4

Select "Change Password" on the left-hand side.

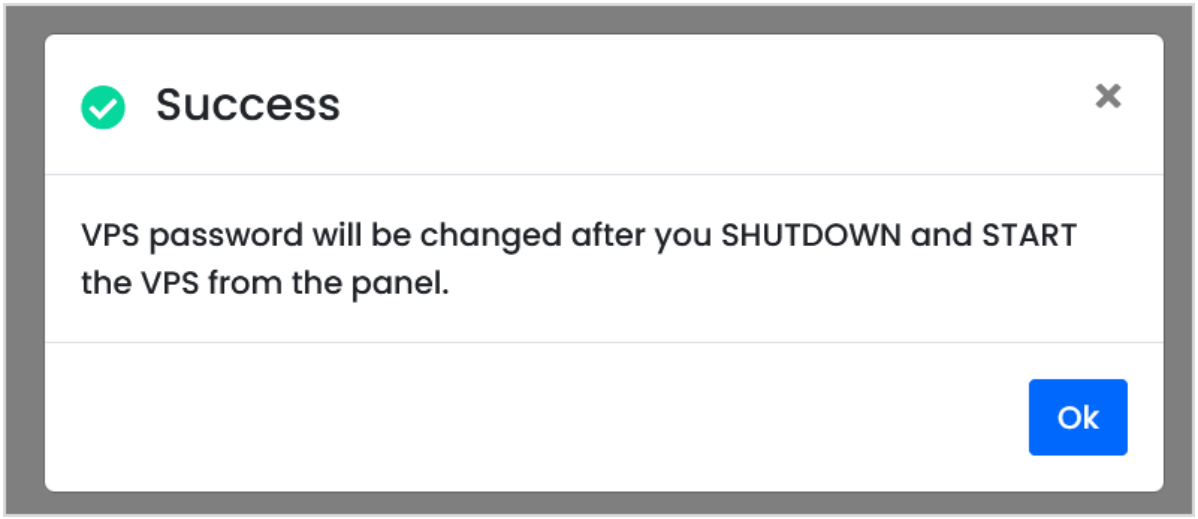

Step 5

Type in the new password in both boxes, then select **Change Password**.

Step 6

Shutdown & Start the VPS for the password to take effect.
