How do I create a manual backup for my VPS?

Step 1

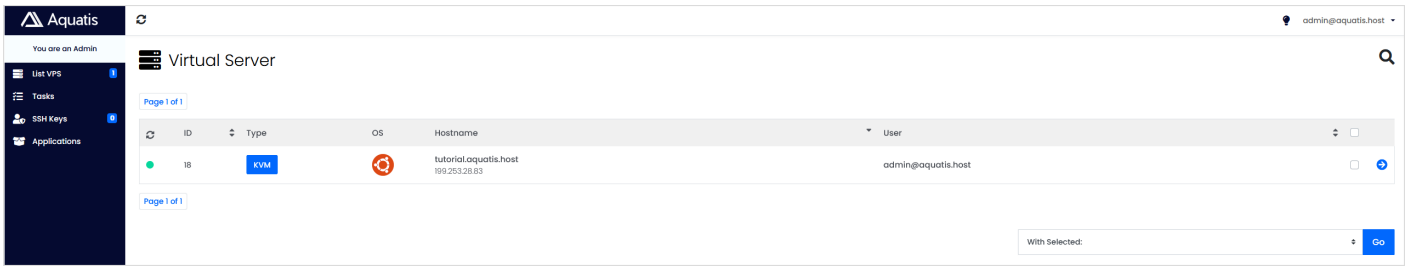

Sign in to the VPS panel.

VPS Panel: https://vps.aquatis.host:4083/

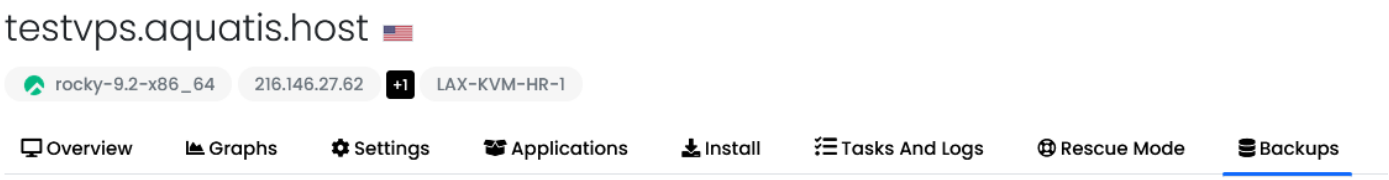

Step 2

Select the **VPS** you wish to control.

Step 3

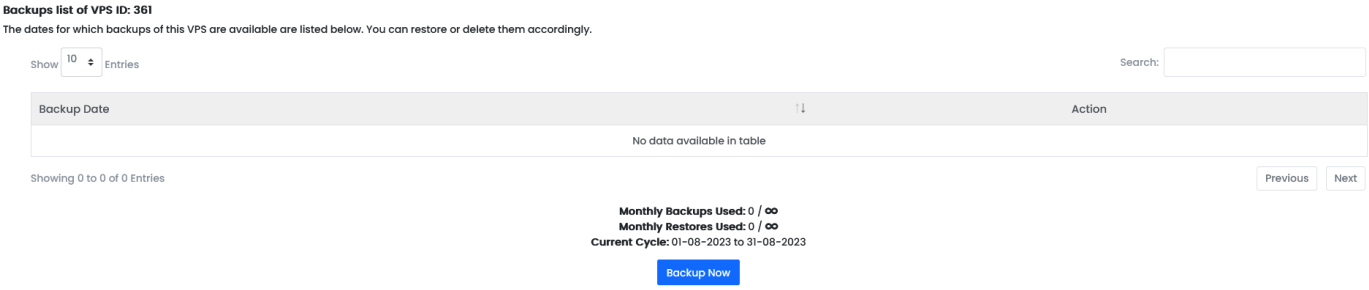

On the navigation bar, select the **Backups** button to view the Backups menu.

Step 4

Select the **Backup Now** button to start the backup process.

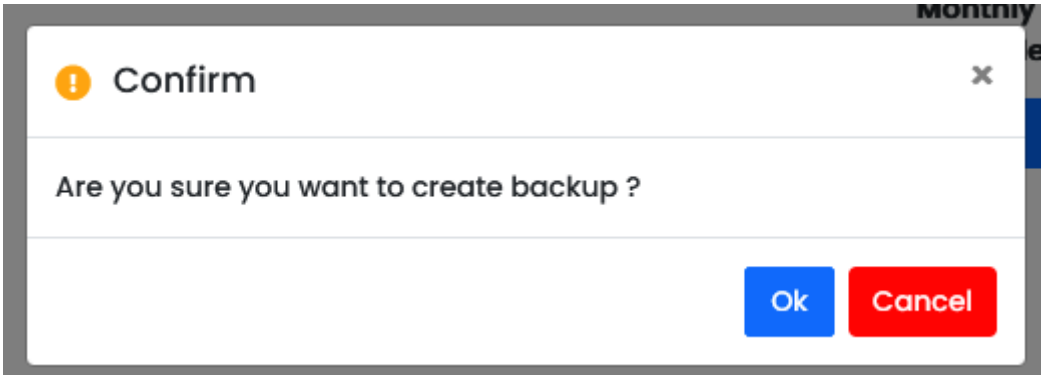

> In this example, this VPS does not have any backups yet.

Step 5

Select **Ok** to initiate the backup process in the background.

> This can take 1-10 minutes to complete.
